

AAFP HOUSE OF DELEGATES Resolution

Introduced by Mississippi Academy of Family Physicians

Subject: *Leveraging Available Technology to Facilitate Uploading CME Activities into AAFP Member Transcripts*

WHEREAS, available technologies are facilitating many administrative duties in the modern world; and

WHEREAS, family physicians depend on the AAFP CME member transcripts for maintaining their CME record; therefore, be it

RESOLVED, that the AAFP will leverage available technology to enable batch CME addition to AAFP member transcripts by uploading multiple CME certificates simultaneously, proofreading the entries, and approving them; and

RESOLVED, that the AAFP will create a mechanism to automatically add CME earned from major academic CME providers such as the *Journal of the American Medical Association* and the *New England Journal of Medicine* by linking member accounts.
